## RUSSIAN GEOLOGY AND GEOPHYSICS

	PAGES	
	RUSSIAN/ENGLISH	
<i>PETROLOGY, GEOCHEMISTRY, AND MINERALOGY</i>		
Stratiform zinc-pyrite ores and gold-ore mineralization on the Nazarovskoe deposit, western Transbaikalia. K.R. Kovalev, M.V. Baulina, V.A. Akimtsev, and G.N. Anoshin . . . . .	963	923
The Fedorovskoe gold deposit and gold potential of the South Siberian ore province ( <i>Gornaya Shoriya</i> ). Yu.G. Shcherbakov, N.V. Roslyakova, and V.V. Kolpakov . . . . .	979	939
Estimation of thermodynamic parameters of the Moho discontinuity beneath the area of trap development on the Siberian Platform and West Siberian Plate. V.N. Sharapov and O.V. Kudryavtseva . . . . .	993	954
The Primorsky granitoid complex of western Cisbaikalia: geochronology and geodynamic typification. T.V. Donskaya, E.V. Bibikova, A.M. Mazukabzov, I.K. Kozakov, D.P. Gladkochub, T.I. Kirnozova, Yu.V. Plotkina, and L.Z. Reznitsky . . . . .	1006	968
Strontium of carbonate-apatite under catagenesis and hydrothermal effect. Yu.N. Zanin and A.G. Zamirailova . . . . .	1017	980
Natural and man-induced sources of elements supplied to bottom sediments in water bodies of the Altai Territory. B.L. Shcherbov, V.D. Strakhovenko, and I.N. Malikova . . . . .	1024	987
<i>GEODYNAMICS</i>		
Geodynamics of ophiolites of the Srednyaya Ters' Massif ( <i>Kuznetsk Alatau</i> ) inferred from paleomagnetic data. A.Yu. Kazansky, S.I. Stupakov, V.A. Simonov, and D.V. Metelkin . . . . .	1036	1000
<i>OIL AND GAS GEOLOGY</i>		
Size distribution of oil and gas pools in poorly explored petroleum provinces. V.R. Livshits . . . . .	1045	1011
<i>GEOPHYSICS</i>		
Propagation and attenuation of electromagnetic waves in inhomogeneous media: numerical modeling using Laguerre transform. A.F. Mastryukov and B.G. Mikhailenko . . . . .	1060	1026
The TEM field of a current loop centered on the axis of a conducting cylindrical layered magnet. M.I. Epov, G.M. Morozova, V.S. Mogilatov, and E.Yu. Antonov . . . . .	1070	1035
Foreshock and aftershock activity in the Baikal basin. V.N. Tabulevich, V.A. Potapov, E.N. Chernykh, and N.N. Drennova . . . . .	1080	1045
